

Community Provider Network

Community Provider Network

A goal of early childhood programming is get children ready for Kindergarten.

Our District is just one of many early childhood program providers in our community getting children ready for Kindergarten. Our Strategic Plan calls for strengthening partnerships that expand learning opportunities. Therefore, our District is partnering with early childhood program providers in our community, the We Believe Alliance, and the City of Bloomington's Public Health Department to create a Community Provider Network (CPN).

Through this CPN, we can increase the number of children who are ready for Kindergarten and also improve the readiness of these children for Kindergarten. A strategy to achieve this goal is through the professional development of the members of this Community Provider Network.

Therefore, a series of professional development sessions are offered to the CPN member. The sessions cover Kindergarten-ready standards, curriculum alignments, data sharing, early childhood research information, etc.

For more information about these sessions or to become a CPN member please contact Lisa Grundstrom at 952-681-6259.

- The next professional development session will be in September 2012 —date to be determined.
